# WYSE CERTIFIED PERIPHERAL LIST

## Notes:

This list is not exhaustive - it only includes peripherals that have been tested by Wyse; if your device is not listed here not indicated as supported or if you have any questions, please contact Wyse Sales or Support for information.

Peripherals listed have been tested on the latest released image and add-on versions; Older versions may not support some of the peripherals listed. Please consult the respective release notes for additional details.

Support for some peripherals may be restricted to specific models based on port limitations; Others may need additional software add-ons to be installed on the client and/or server.

Specifications are subject to change without prior notice. Wyse is not responsible for availability, support, specification changes or proper functioning of third party peripherals.

For Wireless option details, please consult the release notes for the respective models and/or add-ons or admin guides as applicable.

To download the most up to date version of this list please visit the Wyse website.
